Name of Sponsor	:	Axis Bank Ltd.

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. **For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.axismf.com.**

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated November 28, 2025.

Investment Objective	<p>The investment objective is to provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity.</p> <p>There can be no assurance that the investment objective of the scheme will be achieved.</p>								
Asset Allocation Pattern of the scheme	<p>Under normal circumstances, the asset allocation pattern will be:</p> <table border="1" data-bbox="376 421 1461 555"> <thead> <tr> <th data-bbox="376 421 1062 488" rowspan="2">Instruments</th> <th colspan="2" data-bbox="1062 421 1461 488">Indicative allocations (% of total assets)</th> </tr> <tr> <th data-bbox="1062 488 1262 521">Minimum</th> <th data-bbox="1262 488 1461 521">Maximum</th> </tr> </thead> <tbody> <tr> <td data-bbox="376 521 1062 555">Debt & Money Market Instruments*</td> <td data-bbox="1062 521 1262 555">0</td> <td data-bbox="1262 521 1461 555">100</td> </tr> </tbody> </table> <p>*Includes securitized debt (excluding foreign securitized debt) up to 65% of the net assets of the Scheme. The Scheme shall not invest in foreign securitized debt.</p> <p>The cumulative gross exposure through debt and derivative positions should not exceed 100% of the net assets of the Scheme in accordance with Para 12.24 of SEBI Master Circular as amended from time to time.</p> <p>Investment in Derivatives – up to 50% of the net assets of the Scheme. Investment in derivatives shall be for hedging, portfolio balancing and such other purposes as maybe permitted from time to time. Derivative instruments include Interest Rate Swaps, Interest Rate Forwards, Interest Rate Futures, Forward Rate Agreements and any such other derivative instruments permitted by SEBI/RBI from time to time.</p> <p>The Scheme can invest up to 50% of net assets in Foreign Securities.</p> <p>Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to SEBI Master Circular , as may be amended from time to time.</p> <p>The Scheme may engage in Short Selling of securities in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI. The Scheme shall not deploy more than 20% of its net assets in securities lending and not more than 5% of the net assets of the Scheme will be deployed in securities lending to any single counterparty.</p> <p>The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.</p> <p>The scheme retains the flexibility to invest across all the securities in the debt and Money Markets Instruments. The scheme may also invest in units of debt and liquid mutual fund schemes. The portfolio may hold cash depending on the market condition. The fund manager can use Derivative instruments to protect the downside risk.</p> <p>The portfolio duration will undergo a change according to the expected movement in interest rates, liquidity conditions and other macro-economic factors. The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme may review the above pattern of investments based on views on interest rates and asset liability management needs. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.</p>	Instruments	Indicative allocations (% of total assets)		Minimum	Maximum	Debt & Money Market Instruments*	0	100
Instruments	Indicative allocations (% of total assets)

Debt & Money Market Instruments*	0	100							

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with Chapter 16A of SEBI Master Circular for Mutual Funds on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, scheme shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days from the request of CDMDF. Further, an incremental contribution to CDMDF shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.

Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1	Securities Lending and borrowing & Short Selling	The Scheme may engage in Short Selling of securities in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI. The Scheme shall not deploy more than 20% of its net assets in securities lending and not more than 5% of the net assets of the Scheme will be deployed in securities lending to any single counterparty.	Para 12.11 of SEBI Master Circular for Mutual Funds as amended from time to time.
2	Derivatives for non- hedging purposes	There is no separate limit for derivatives for non-hedging purposes. Please refer above para for exposure in derivatives	Para 7.5 7.6 & Para 12.25 of SEBI Master Circular for Mutual Funds
3	Securitized Debt	Securitized debt (excluding foreign securitized debt) up to 65% of the net assets of the Scheme. The Scheme shall not	Para 12.15 of SEBI Master Circular for Mutual Funds.

		invest in foreign securitized debt.	
4	Overseas Securities	The Scheme can invest up to 50% of net assets in Foreign Securities.	Para 12.19 of SEBI Master Circular for Mutual Funds.
5	Debt instruments with special features AT1 & AT2 Bonds	<p>a) No Mutual Fund under all its schemes shall own more than 10% of such instruments issued by a single issuer.</p> <p>b) The scheme shall not invest –</p> <p>i. more than 10% of its NAV of the debt portfolio of the scheme in such instruments; and</p> <p>ii. more than 5% of its NAV of the debt portfolio of the scheme in such instruments issued by a single issuer.</p> <p>The above investment limit for a mutual fund scheme shall be within the overall limit for debt instruments issued by a single issuer and other prudential limits with respect to the debt instruments.</p>	Para 12.2.2 of SEBI Master Circular for Mutual Funds.
6	Credit Enhancement /Structured Obligations	<p>The investment by the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the scheme:</p> <p>a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and</p> <p>b. Supported rating of debt instruments (i.e. after factoring-in credit</p>	Para 12.3 of SEBI Master Circular for Mutual Funds.

		enhancement) is above investment grade. These limits shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.	
7	Tri party Repo	Allocation may be made to TREPS from any amounts that are pending deployment or on account of any adverse market situation.	-
8	Mutual Fund Units	The scheme may invest in units of debt and liquid mutual fund schemes of Axis AMC or in the schemes of any other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations. Provided that such investment will be within the limits specified under SEBI (MF) Regulations and will be done for cash management purposes.	Clause 4 of Seventh Schedule of SEBI (MF) Regulations, 1996
9	Repo and Reverse repo in corporate debt securities	The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.	Para 12.18 of SEBI Master Circular for Mutual Funds.

10	Units of Corporate Debt Market Development Fund ('CDMDF')	The Scheme shall invest 25 bps of their AUM in the units of CDMDF. The scheme shall, every six months, additionally contribute to CDMDF as their AUM increases, to ensure 25 bps of scheme AUM is invested in units of CDMDF.	Chapter 16A of SEBI Master Circular for Mutual Funds
----	---	---	--

The limits given above shall be subject to Schedule VII of the Regulations / circulars issued by SEBI and shall stand revised to the extent of changes in the Regulations/ circulars from time to time.

The Scheme shall not invest in following instruments:

Sl. No.	Type of Instrument
1	Credit default swaps
2	REITS and InVITS

The limits given above shall be subject to Schedule VII of the Regulations / circulars issued by SEBI and shall stand revised to the extent of changes in the Regulations/ circulars from time to time

Portfolio rebalancing due to short term defensive considerations:

Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. The Scheme may actively deviate from the stated asset allocation pattern outlined in the SID during extenuating circumstances. These instances may be beyond the control of the fund manager & the AMC and hence may require such deviations. Such changes in the investment pattern will be transitional in nature and will be undertaken as defensive considerations only in accordance with Para 1.14.1.2 of SEBI Master circular for Mutual Fund and as amended from time to time. Defensive considerations may be determined by the fund manager and /or AMC from time to time. In case of deviations on account of exogenous factors, the fund manager will endeavour to rebalance the Scheme within 30 calendar days from the date of such deviation. The intention being at all times to seek to protect the interests of the Unit holders

Portfolio rebalancing due to passive breaches:

In case of passive deviation from the asset allocation pattern or various prudential limits prescribed under SEBI (Mutual funds) regulations, 1996 and circulars issued thereunder the AMC shall follow process specified in Para 2.9 of SEBI Master circular for Mutual Fund as amended from time to time. In line with the circular, in the event of deviation from the mandated asset allocation limits mentioned in the SID or the prudential limits due to passive breaches such as corporate action, substantial rise/ fall in the price of an underlying scrip, maturity of any underlying security, large redemptions, etc., the portfolio would be rebalanced within 30 business days from the date of deviation. Where the portfolio is not rebalanced within mandated timelines, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the Scheme is not rebalanced within aforementioned mandated plus extended timelines AMC shall adhere to the requirements as laid down in the aforesaid SEBI circular. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.

Concept of Macaulay duration	<p>The Macaulay duration is a measure of a bond's sensitivity to interest rate changes. It is a measure of the average life of the bond taking into account the coupon payments as well as the repayment of principal. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Because it takes into account both coupons and maturity cash flows, it better reflects the relationship between interest rates and price of the bond.</p>
Investment Strategy	<p>The scheme follows an active investment strategy.</p> <p>The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund at the same time maintaining a balance between safety and liquidity.</p> <p>The portfolio construction will seek to play out the shape of the curve (overnight – 12 months, 1Year-3Year, steep/flat/inverted) and differentiated levels of risk premia offered by the market to different class of issuers. E.g. yields for 1Year instrument issued by a bank, a NBFC, a manufacturing corporate, a broking company can differ by as high as 100-500 basis points even if all of them are rated equally by the credit rating agency. Accordingly there is a trade-off in terms of their respective liquidity. In view of the Fund's objective of maximizing returns with maintaining high liquidity, the portfolio will be constructed with judicious mix of instruments issued by the universe of eligible issuers across the spectrum. Portfolio maturity (in months) is determined after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer.</p> <p>The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.</p> <p>For derivatives strategy, please refer to the SID.</p>
Risk Profile of the Scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, short selling, debt instruments having credit enhancements and securities lending. Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p>

	<p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc. Please refer to the SID for further details.</p> <p>Please read the SID carefully for details on risk factors before investment.</p> <p>Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF): CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified open ended MF schemes to begin with) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the aforementioned Schemes to better generate liquidity during market dislocation to help the schemes fulfil liquidity obligations under stress situation.</p> <p>Investors are requested to read detailed disclosure on investment of the schemes in the CDMDF as mentioned in relevant section of SID.</p>																		
<p>Risk Mitigation strategies</p>	<p>Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p> <p>For more details, please refer SID.</p>																		
<p>Creation of Segregated Portfolio</p>	<p>In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars. For Details, kindly refer SAI.</p>																		
<p>Plans and Options</p>	<p>Plans</p> <ol style="list-style-type: none"> Axis Treasury Advantage Fund - Regular Plan Axis Treasury Advantage Fund - Direct Plan <p>Each Plan offers the following options:</p> <ul style="list-style-type: none"> Growth option Income Distribution cum Capital Withdrawal (IDCW) option <table border="1" data-bbox="373 1585 1466 1888"> <thead> <tr> <th>Options</th> <th>Sub-options</th> <th>Frequency of IDCW</th> <th>Record date</th> </tr> </thead> <tbody> <tr> <td>Growth</td> <td>Nil</td> <td>NA</td> <td>NA</td> </tr> <tr> <td rowspan="3">IDCW</td> <td>Daily (Re-investment)</td> <td>Daily (every business day)</td> <td>Daily</td> </tr> <tr> <td>Weekly (payout and Reinvestment)</td> <td>Weekly</td> <td>Every Monday*</td> </tr> <tr> <td>Monthly (payout and reinvestment)</td> <td>Monthly</td> <td>25th of the month*</td> </tr> </tbody> </table> <p>*Next Business day if such day happens to be a non-business day.</p> <p>Default Option/Facility</p> <p>The investor must clearly specify his choice of option/facility.
