The scheme shall not invest in below securities/instruments:

Sr. No.	Type of Instrument
1	Credit default swaps

Portfolio rebalancing due to short term defensive considerations:

Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. The Scheme may actively deviate from the stated asset allocation pattern outlined in the SID during extenuating circumstances. These instances may be beyond the control of the fund manager & the AMC and hence may require such deviations. Such changes in the investment pattern will be transitional in nature and will be undertaken as defensive considerations only in accordance with Para 1.14.1.2 of SEBI Master circular for Mutual Fund and as amended from time to time. Defensive considerations may be determined by the fund manager and /or AMC from time to time. In case of deviations on account of exogenous factors, the fund manager will endeavour to rebalance the Scheme within 30 calendar days from the date of such deviation. The intention being at all times to seek to protect the interests of the Unit holders.

Portfolio rebalancing due to passive breaches:

In case of passive deviation from the asset allocation pattern or various prudential limits prescribed under SEBI (Mutual funds) regulations, 1996 and circulars issued thereunder the AMC shall follow process specified in Para 2.9 of SEBI Master circular for Mutual Fund as amended from time to time. In line with the circular, in the event of deviation from the mandated asset allocation limits mentioned in the SID or the prudential limits due to passive breaches such as corporate action, substantial rise/ fall in the price of an underlying scrip, maturity of any underlying security, large redemptions, etc., the portfolio would be rebalanced within 30 business days from the date of deviation. Where the portfolio is not rebalanced within mandated timelines, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the Scheme is not rebalanced within aforementioned mandated plus extended timelines AMC shall adhere to the requirements as laid down in the aforesaid SEBI circular. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.

Investment Strategy	<p>The scheme follows active investment strategy.</p> <p>The Scheme aims to provide long term capital growth by investing in a diversified portfolio of companies that are selected using attributes of value investing. The approach of value investing is to identify stocks which trade at valuations lower than the overall market, their own historical average valuations or relative to their fundamental valuations. Stocks that trade at lower valuations have the potential to provide appreciation in the future.</p> <p>However, value investing needs to keep in mind the risk of value traps – that is stocks that appear optically cheap but are not really so since the cheap valuation is backed by poor fundamentals. Hence the Scheme's strategy would be to select value stocks while making sure that they have sound business models.</p> <p>Some of the scenarios where a company becomes a value opportunity may include:</p> <ul style="list-style-type: none"> - company maintains competitive advantages, and have temporarily fallen out of favor for reasons that are considered non-recurring or short-term; - whose value is not currently well known; - whose value is not fully recognized by the public. <p>While identifying value stocks, the Scheme will focus on companies that maintain strong balance sheets and have experienced management.</p> <p>Some of the measures that Scheme can use to look at the valuation of a company to determine whether it qualifies as a value stock may include:</p> <ul style="list-style-type: none"> • present value of discounted projected cash flows; • price-to-earnings ratio • price-to-book ratio; and • price-to-sales ratio. <p>For details on derivative strategy, kindly refer section – I Part – II C of the SID of the Scheme.</p>
Risk Profile of the Scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in Value theme, equities, fixed income securities, securitized debt, derivatives, repo transactions in Corporate Bonds, REITs, InvITs etc.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, debt instruments having credit enhancements, etc.</p>
Risk Mitigation strategies	<p>Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.</p> <p>For more details, please refer SID.</p>
Creation of Segregated Portfolio	<p>In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars</p>
Plans and Options	<p>Plans</p>

	<p>Axis Value Fund - Regular Plan Axis Value Fund - Direct Plan</p> <p>Options under each Plan(s) Growth Income Distribution cum Capital Withdrawal (IDCW) (Payout and Re-investment Facility)</p> <p>Default Option/Facility The investor must clearly specify his choice of option/facility. In the absence of such clear instruction, it will be assumed that the investor has opted for 'default' option / facility and the application will be processed accordingly.
