Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern will be:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Securities covered by Nifty 500 Index ^{\$}	95	100
Debt & Money Market Instruments [^]	0	5

In terms of Para 3.4 of Master Circular for Mutual Funds as amended from time to time, which specifies the portfolio concentration norms as follows, shall be complied with respect to the underlying Index:

- The index has a minimum of 10 stocks as its constituents.
- No single stock in the index shall have more than 25% weight in the index.
- The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

^{\$}Investments in equity derivatives shall be up to 20% of the Net Assets of the Scheme. Investment in equity derivatives of underlying securities forming part of the index shall be undertaken in case the underlying security is not available for purchase, in sufficient or for rebalancing in cases of events such as corporate action, etc. Such investment in derivatives shall be for short term and defensive considerations. The Scheme may use derivatives for such purposes as may be permitted by the Regulations, based on the opportunities available and subject to guidelines issued by SEBI from time to time.

[^]Residual portion of 5% of the net assets of the Scheme is provided for liquidity purposes.

The gross cumulative exposure through equity, debt & money market instruments and derivative position should not exceed 100% of the net assets of the Scheme in accordance with Para 12.24 of Master Circular of Mutual Fund as amended from time to time. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days. The Scheme may take exposure through derivative transactions in the manner and up to the limit as specified above.

The net assets of the scheme will be invested in stocks constituting the Nifty 500 Index. This would be done by investing in all the stocks comprising the Nifty 500 Index in the same weightage that they represent in the Nifty 500 Index. A small portion of the net assets of the Scheme will be invested in debt and money market instruments permitted by SEBI/ RBI including call money market or in alternative investment for the call money market as may be provided by the RBI, to meet the liquidity requirements of the Scheme. Further, due to corporate action in companies comprising the Underlying Index, the scheme may be allocated/allotted securities which are not part of the Underlying Index. Such security will be considered for asset allocation basis the security asset class.

Being a passively managed index fund, change in investment pattern is normally not foreseen. However, for short durations part of the corpus may be pending for deployment, in cases of extreme market conditions, special events or corporate events, like declaration of dividend by the companies comprising the index.

Investment in short term deposit

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the

AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines issued by Para 12.16 of SEBI Master Circular for Mutual Funds.

Stock Lending

The Scheme shall adhere to the following limits should it engage in Stock Lending.

1. Not more than 20% of the net assets of the Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of the Scheme can generally be deployed in Stock Lending to any single counter party / intermediary (as may be applicable).

The Scheme shall not carry out short selling.

Investment in Units of units of debt and liquid Mutual Fund

The Scheme may invest upto 5% of the net assets of the Scheme in units of debt and liquid mutual fund schemes of Axis AMC or of other mutual funds in terms of the prevailing SEBI (MF) Regulations.

The Scheme shall not invest in Overseas securities/ADR/GDR, Securitized debt, REIT / InvITs, Repo/ Reverse repo transactions in corporate debt, Unrated debt instruments, Credit Default Swaps, debt instruments having Structured obligations / Credit enhancements and instruments with special features as specified in Para 12.2 of SEBI Master circular for Mutual Fund Scheme. The Scheme shall not carry out short selling.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1.	Derivatives for non-hedging purposes	Please refer above para for exposure in derivatives	Para 7.5, Para 12.25 of SEBI Master Circular for Mutual Funds and Para E of Section 2 of SEBI circular dated December 31, 2024 on MF lite framework.
2.	Securities Lending and borrowing	The Scheme shall adhere to the following limits should it engage in Stock Lending. 1. Not more than 20% of the net assets of the Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of the Scheme can generally be deployed in Stock Lending to any single counter party/ intermediary (as may be applicable).	Para 12.11 of SEBI Master Circular for Mutual Funds as amended from time to time.
3.	Tri party Repo	The corpus of the Scheme pending for deployment may be invested in Tri-Party Repos (TREPS) on Government Securities.	-
4. 9	The Scheme shall not undertake short selling
10	Debt Derivatives
11	Unlisted debt instrument
12	Bespoke or complex debt products
13	The Scheme shall not undertake Inter scheme transactions

Portfolio rebalancing due to short term defensive considerations:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Para 1.14.1.2 of SEBI Master Circular for Mutual Fund or as may be amended from time to time, and the fund manager will rebalance the portfolio within 7 calendar days from the date of deviation.

Portfolio rebalancing:

In the event of deviation due to change in constituents of the index due to periodic review, in accordance with Para 3.6.7 of SEBI Master Circular for Mutual Funds as amended from time to time, the portfolio of the Scheme shall be rebalanced within 7 calendar days from the date of such deviation.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of listing. Similarly, unlisted securities received in the event of corporate action will be disposed by the Fund Manager in line with the investment objective of the Scheme.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest in following instruments:

- Equity & Equity related instruments (forming part of the underlying index)
- Equity Derivatives of the securities forming part of the underlying index
- Debt & Money Market instruments (as per asset allocation pattern)
- Short Term Deposit
- Units of Mutual Fund Schemes

The Scheme shall invest in any other instruments as may be permitted by SEBI/RBI from time to time in line with the investment objective of the Scheme.

Kindly refer detailed definitions and applicable regulations/guidelines for each instruments in the Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme follows a passive investment strategy.

The Scheme would invest in stocks comprising the underlying index and shall track the benchmark index. The Scheme may also invest in debt and money market instruments, in compliance with Regulations to meet liquidity and expense requirements. The Scheme shall invest in stocks forming part of the underlying Index in the same ratio as per the index to the extent possible and to that extent follow a passive investment strategy, except to the extent of meeting liquidity and expense requirements. Events like the constituent stocks becoming illiquid in the cash market, the exchange changing the constituents, a large dividend going ex but lag in its receipts, etc. tend to increase the tracking error. In such events, it may be more prudent for the Scheme to take exposure through derivatives of its constituent stocks in order to minimize the long term tracking error

Derivatives Strategy:

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. Investment in equity derivatives of underlying securities shall be undertaken in instances of portfolio rebalancing or unavailability of the securities, in cases of events such as corporate action, etc. for short term and defensive considerations. These include but are not limited to stock futures .

Derivatives are financial contracts of pre-determined fixed duration, like stock futures, whose values are derived from the value of an underlying primary financial instrument.

For detailed risks associated with use of derivatives, please refer paragraph “Scheme Specific Risk Factors”. Exchange traded derivatives Contracts in stocks and indices in India are currently cash settled at the time of maturity.

Concepts and Examples of derivatives which may be used by the fund manager:

According to regulations, investment in equity derivatives of underlying securities shall be allowed in instances of portfolio rebalancing or unavailability of the securities.

Derivative Contract on underlying securities-

There are derivative contracts based on individual securities. The profitability of stock derivative as compared to individual security will inter-alia depend upon:

- The carrying cost,
- The interest available on surplus funds, and
- The transaction cost.

Example of a typical future trade and the associated costs:

Particulars	Stock Future	Actual Purchase of Stock
Stock at the beginning of the month	17,500	17,500
Price of 1 month stock future	17,650	
A. Execution cost: Carry and other stock future costs	150	
B. Brokerage cost: Assumed at -	35	43.75
0.2% for stock futures and 0.25% for spot Stocks		
C. Gains on surplus fund: (Assumed 8% p.a. return on 85% of the money left after paying 15% margin) $(8\% \times 17650 \times 85\% \times 30 \text{ days} / 365)$	100	
Total Cost (A+B-C)	85	43.75

Risk: On the date of expiry, when the trade is to be unwound, it is not necessary for the stock price and its future contract to coincide. There could be a discrepancy in their prices even a minute before the market closes. Thus, there is a possibility that the trade will get unwound at different prices.

Option Contracts (Stock Options)

An Option gives the buyer the right, but not the obligation, to buy (call) or sell (put) a stock at an agreed-upon price during a certain period of time or on a specific date.

Option contracts are of following two types - Call and Put.

Call Option: A call option gives the buyer, the right to buy specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of call option however, has the obligation to sell the underlying asset if the buyer of the call option decides to exercise the option to buy.

Put Option: A put option gives the buyer the right to sell specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of put option however, has the obligation to buy the underlying asset if the buyer of the put option decides to exercise his option to sell.

Options Risk / Return Pay-off Table

	Stock Options	Buy Call	Sell Call	Buy Put	Sell Put
1	Premium	Pay	Receive	Pay	Receive
2	Risk Potential	Limited to premium paid	Unlimited	Limited to premium paid	Unlimited
3	Return Potential	Unlimited	Premium Received	Unlimited	Premium Received

Risk: The options buyer's risk is limited to the premium paid. However, the gains of an options writer are limited to the premiums earned. The exchange may impose restrictions on exercise of options and may also restrict the exercise of options at certain times in specified circumstances, and this could impact on the value of the portfolio. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price. The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.

The risks are also different when stock futures are bought/sold vis-a-vis stocks options as in the case of a stock future there is a mark to market variation and the risk is much higher as compared to buying an option, where the risk is limited to the extent of premium paid.

The illustration below explains call / put option for individual securities.

Call Option

Suppose an investor buys a Call option on 1 lot of Stock XYZ (Lot Size: 50 units)

- Stock XYZ Option (European option).
- Stock XYZ 1 Lot Size: 50 units
- Spot Price (S): 17,500
- Strike Price (x): 17,550 (Out-of-Money Call Option)
- Premium: 100

Total Amount paid by the investor as premium [50*100] =5,000

There are two possibilities i.e. either the stock moves up over the strike price or remains below the strike price.

Case 1- The stock goes up

- An investor sells the Stock XYZ Option described above before expiry:

Suppose the Stock XYZ moves up to 17,600 in the spot market and the premium has moved to Rs 200 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Stock XYZ call option as the option now is In the Money.

His gains are as follows:

- Stock XYZ Spot: 17,600
- Current Premium: Rs.200
- Premium paid: Rs.100
- Net Gain: Rs.200- Rs.100 = Rs.100 per unit

- Total gain on 1 lot of Stock XYZ (50 units) = Rs. 5,000 (50*100)

In this case the premium of Rs.200 has an intrinsic value of Rs.100 per unit and the remaining Rs.100 is the time value of the option.

- An investor exercises the Stock XYZ Option at expiry :

Suppose the Stock XYZ moves up to 17,700 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Stock XYZ call option as the option now is 'In The Money'.

His gains are as follows:

- Stock XYZ Spot: 17,700
- Premium paid: Rs.100
- Exercise Price: 17,550
- Receivable on exercise: $17,700 - 17,550 = 150$
- Total Gain: Rs. 2,500 $\{(150 - 100) * 50\}$

In this case the realised gain is only the intrinsic value, which is Rs.50, and there is no time value.

Case 2 - The Stock XYZ moves to any level below 17,550

Then the investor does not gain anything but on the other hand his loss is limited to the premium paid:

Net Loss is Rs. 5,000 (Loss is capped to the extent of Premium Paid)

(Rs 100 Premium paid * Lot Size: 50 units).

Put Option

Suppose an investor buys a Put option on 1 lot of Stock XYZ.

- Stock XYZ 1 Lot Size: 50 units
- Spot Price (S): 17,500
- Strike Price (x): 17,450 (Out-of-Money Put Option)
- Premium: 30
- Total Amount paid by the investor as premium $[50 * 30] = \text{Rs. } 1,500$

There are two possibilities i.e. either the Stock XYZ moves over the strike price or moves below the strike price.

Let us analyze these scenarios.

Case 1 - The Stock XYZ goes down

- An investor sells the Stock XYZ Option before expiry:

Suppose the Stock XYZ moves down to 17,400 in the spot market and the premium has moved to Rs. 80 and there are 15 days more left until the expiry. The investor decides to reverse his position in the market by selling his 1 Stock XYZ Put Option as the option now is In The Money.

His gains are as follows:

- Stock XYZ Spot: 17,400
- Premium paid: Rs.30
- Net Gain: $\text{Rs.}80 - \text{Rs.}30 = \text{Rs.}50$ per unit
- Total gain on 1 lot of Stock XYZ (50 units) = Rs. 2,500 (50*50)

In this case the premium of Rs.80 has an intrinsic value of Rs.50 per unit and the remaining Rs.30 is the time value of the option.

- An investor exercises the Stock XYZ Option at expiry (It is an European Option) :

Suppose the Stock XYZ moves down to 17,400 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Stock XYZ Put Option as the option now is In The Money.

His gains are as follows:

- Stock XYZ Spot: 17,400
- Premium paid: Rs.30
- Exercise Price: 17,450
- Gain on exercise: $17,450 - 17,400 = 50$
- Total Gain: Rs. 1,000 $\{(50 - 30) * 50\}$

In this case the realised amount is only the intrinsic value, which is Rs.50, and there is no time value in this

case.

Case 2 - If the Stock XYZ stays over the strike price which is 17,450, in the spot market then the investor does not gain anything but on the other hand his loss is limited to the premium paid.

- Stock XYZ Spot: >17,450
- Net Loss Rs.1,500 (Loss is capped to the extent of Premium Paid)
(Rs 30 Premium paid*Lot Size: 50 units).

PORTFOLIO TURNOVER

The Scheme is an open-ended scheme. It is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

For details pertaining to Risk Controls and Risk Mitigation refer Point no. C Part I of Section II of the Scheme Information Document.

Part III. OTHER DETAILS

A.COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. Separate NAV will be calculated and disclosed for each Option.

The NAVs will be calculated and disclosed on all the Business Days.

Illustration of Computation of NAV:

The computation of NAV per unit using various components is explained as follows:

Particulars	Amount in Rs
Market or Fair Value of Scheme's Investments (A)	10,00,00,000.00
Add: Current Assets including Accrued Income ... (B)	75,34,345.00
Less: Current Liabilities and Provisions. (C)	(30,00,000.00)
Net Assets (A+B-C)	10,45,34,345.00

No. of Units outstanding under Scheme on the Valuation Day: 100,00,000

The NAV per unit will be computed as follows: $10,45,34,345.34 / 100,00,000 = \text{Rs. } 10.4534$ per unit (rounded off to four decimals)

The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that following expenses will be charged to the Scheme as expenses as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the AMC.

Expense Head	% of daily Net Assets

Additional expenses under regulation 52(6A)(c) ^	Upto 0.05%
Additional expenses for gross new inflows from specified cities under Regulation 52(6A)(b) #	Upto 0.30%

^The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable.

*Any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

@5% of total TER charged to the direct plan, subject to maximum of 0.5 bps of AUM.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The expenses towards Investment Management and Advisory Fees under Regulation 52(2) and the various sub-heads of recurring expenses mentioned under Regulation 52(4) of SEBI (MF) Regulations can be apportioned under various expense heads/ sub heads without any sub limit, as permitted under the applicable regulations. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) may be incurred either towards investment & advisory fees and/or towards other expense heads as stated above as and when applicable.

These estimates have been made in good faith as per the information available with the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations.

The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations and amendments thereto.

The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations. It is as follows:

In case of an index fund scheme, the total expense ratio of the Scheme including the investment and advisory fees shall not exceed 1.00 per cent of the daily net assets.

The total expenses of the Scheme including the investment management and advisory fee shall not exceed the limit stated in Regulation 52(6) of the SEBI (MF) Regulations.

The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

Expenses charged to the Scheme:

A. In addition to the limits as specified in Regulation 52(6) of SEBI (MF) Regulations or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the Scheme namely-

(a) Additional expenses for gross new inflows from specified cities

expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI/AMFI from time to time are at least -

- (i) 30 per cent of gross new inflows in the Scheme, or;
- (ii) 15 per cent of the average assets under management (year to date) of the Scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

Provided further that, expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the Scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that, additional TER can be charged based on inflows only from retail investors from B30 cities in terms of Para 10.1 of SEBI master circular for Mutual Fund. For this purpose inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor".

#Note: Pursuant to SEBI letter dated February 24, 2023 read with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

(b) Additional expenses under regulation 52(6A)(c)

Additional expenses, incurred towards different heads mentioned under Regulations 52(2) and 52(4), not exceeding 0.05 per cent of daily net assets of the Scheme;

(c) GST payable on investment and advisory service fees ('AMC fees') charged by Axis Asset Management Company Limited;

(d) Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market & derivative transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market & derivative transactions respectively within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the Regulations

B. Within the Total Expense Limit chargeable to the Scheme, following will be charged to the Scheme:

- (a) GST on other than investment and advisory fees, if any shall be borne by the Scheme.
- (b) Investor education and awareness initiative fees of 5% of total TER charged to the direct plan, subject to maximum of 0.5 bps of AUM.
- (c) AMC fees charged by Axis AMC to the Scheme will be within the Total Expense Limit as prescribed by SEBI (MF) Regulations, with no sub-limit on said AMC fees.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars and clarification issued thereon.

Expenses over and above the prescribed limit shall be charged / borne in accordance with the Regulations prevailing from time to time.

The mutual fund would update the notice for change in base TER on its website (www.axismf.com) at least three working days prior to the effective date of the change. Investors can refer 'Total Expense Ratio of Mutual Fund Schemes' section on <https://www.axismf.com/total-expense-ratio> for Total Expense Ratio (TER) details.

Illustration of impact of expense ratio on scheme's returns.

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the Scheme (including expenses charged). Expenses charged to the Scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Please Note:

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme. The Total Expenses considered in the illustration is an hypothetical number and the actual expense may vary from the same. The Illustration should not be construed as providing any kind of investment advice or guarantee of returns on investments.

- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor

D. LOAD STRUCTURE

Load is an amount which is paid by the Investor to redeem the Units from the Scheme. This amount is used by the AMC to pay commission to the distributors and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC (www.axismf.com) or may call at contact number **8108622211** (Chargeable) from 9.00 am to 6.00 pm (Monday to Saturday) or can contact his distributor.

Para 10.4 of SEBI Master Circular For Mutual Funds as amended from time to time has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Exit Load	For details refer Point no. XI of Part – I of Section I of the Scheme Information Document.

Units issued on reinvestment of IDCW shall not be subject to Load. No load shall be levied on switches between options and sub-options of the Scheme.

For switches within the Scheme from Regular to Direct Plan or vice versa, no exit load shall be charged.

The above mentioned load structure shall be equally applicable to the special products offered under the Scheme such as SIP, STP, SWP, etc. offered by the AMC.

Exit load charged to the investors will be credited back to the Scheme net of GST.

Investors are requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/ Investor Service Centres.

Para 10.4 of Master Circular for Mutual Funds has decided that there shall be no Entry Load for all Mutual Fund schemes.

Under the Scheme, the AMC/ Trustee reserves the right to change / modify the load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/ Trustee reserves the right to introduce / modify the load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

The Redemption Price however, will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

At the time of changing the Load Structure:

1. The AMC shall be required to issue an addendum and display the same on its website immediately;
2. The addendum shall be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Document and Key Information Memorandum already in stock.
3. Latest applicable addendum shall be a part of KIM and SID of the respective Scheme(s).
4. Further, the account statements shall continue to include applicable load structure.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under

the Regulations. Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 Investors and no single Investor shall account for more than 25% of the corpus of the Scheme. The aforesaid conditions should be complied with in each calendar quarter on an average basis. In case the Scheme does not have a minimum of 20 Investors on an ongoing basis for each calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at Applicable NAV. If there is a breach of the 25% limit by any Investor over the quarter, a rebalancing period of one month would be allowed and thereafter the Investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic Redemption by the Mutual Fund at the Applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Section II

I. Introduction

A. Definitions/interpretation

For details refer website of Axis Mutual Fund: <https://www.axismf.com/statutory-disclosures>

B. Risk factors

Scheme Specific Risk Factors

Risks associated with Passive investments strategy

The Scheme will be a passively managed scheme providing exposure to constituents of Nifty 500 Index and tracking its performance and yield, before expenses. The Scheme performance may be affected by a general decline in the Indian markets relating to its underlying Index. The Scheme invests in the underlying Index regardless of its investment merit.

Nifty 500 Index represents the top 500 companies based on full market capitalisation from the eligible universe. Equities are volatile in nature and are subject to price fluctuations on a daily basis. The volatility in the value of the equity instruments is due to various micro and macroeconomic factors affecting the securities markets. This may have an adverse impact on individual securities /sector and consequently on the NAV of Scheme.

Given the index also constitutes mid and small cap stocks, it is a possibility that fund manager may take some time to purchase/sell some stocks because of liquidity issues or trading restrictions. This may lead to a temporary mismatch between the scheme's portfolio and the benchmark index.

Tracking Error Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as delay in purchase or non-availability of underlying securities forming part of the index, the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index. Tracking Error may arise due to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Difference in valuation of underlying securities by the Index Provider and AMC's valuation providers.
4. Expenditure incurred by the Fund.
5. Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, or corporate actions or otherwise.
6. Securities trading may halt temporarily due to circuit filters.
7. Corporate actions such as debenture or warrant conversion, rights issuances, mergers, change in constituents etc.
8. Rounding-off of the quantity of securities/shares in the underlying index.
9. Interest payout.
10. Index providers undertake a periodical review of the securities/scrips that comprise the underlying index and may either drop or include new securities/scrips.

In such an event, the Fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately. SEBI Regulations (if any) may impose restrictions on the investment and/or divestment activities of the Scheme Such

restrictions are typically outside the control of the AMC and may cause or exacerbate the Tracking Error.

Tracking difference:

Tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme shall be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

Risks associated with investments in Equity and Equity related securities

- Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

Risks associated with investments in derivatives

- The Scheme may invest in derivative products in accordance with and to the extent permitted under the Regulations. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself.
- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- Investment in derivatives also requires the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- Investments in stock futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is similar to that of underlying stocks.
- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.

- Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments

Risks associated with investments in Fixed Income Securities

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Liquidity Risk: The liquidity of money market instruments may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the instrument. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV

Risks associated with Segregated Portfolio

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio on recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

Risks associated with Securities lending

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, to comply with the terms of agreement entered into between the lenders of securities i.e. any scheme and the approved intermediary/counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary/counterparty to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Scheme may not be able to sell such lent securities and this can lead to temporary illiquidity.

C. Risk mitigation strategies

Risk Control & Risk Mitigation:

Risk is an inherent part of the investment function. Effective Risk Management is critical to Fund Management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.

The Scheme aims to track the Nifty 500 TRI before expenses. The index is tracked on a regular basis and changes to the constituents or their weights, if any, are replicated in the Scheme portfolio with the purpose of minimizing tracking error.

Investments in equity securities and money market securities carry various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification.

In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

The AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme.

Risk control measures with respect to investment Equity instruments

Market Risk: Equity and Equity related securities by nature are volatile and prone to price fluctuations on a daily basis due to both macro and micro factors.

Mitigation - Market risk is a risk which is inherent to an equity scheme. The scheme will try to reduce the market risk by undertaking active portfolio management as per the investment objective.

Liquidity risk: The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods

Mitigation- As such the liquidity of stocks that the scheme invests into could be relatively low. The scheme will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.

Tracking error risk: The performance of the Scheme may not commensurate with the performance of the benchmark index on any given day or over any given period. Such variation, referred to as tracking error may impact the performance of the Scheme.

Mitigation: The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

Risk control measures with respect to Debt & Money Market Instruments

Market Risk / Interest Rate Risk: Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as

interest rates rise. The price movement up and down in fixed income securities will lead to possible movements in the NAV.

Mitigation - In a rising interest rates scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

Mitigation- The scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

Credit risk or default risk: It refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Mitigation- Apart from the basic examination, management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.

Risk control with respect to derivatives

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The Scheme may invest in derivative for the purpose of portfolio balancing and other purposes as may be permitted under the Regulations.

Mitigation- Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. All equity derivatives trade will be done only on the exchange with guaranteed settlement.

II. Information about the scheme:

A. Where will the scheme invest –

The corpus of the Scheme will be invested in Equity & Equity related instruments forming part of the constituents of the underlying index. The scheme will track NIFTY 500 TRI and is a passively managed scheme. In case of any change in the index due to corporate actions or change in the constituents of NIFTY 500 TRI the relevant investment decision will be determined considering the composition of NIFTY 500 Index.

The scheme would invest in stocks comprising the underlying index. The Fund may also invest in Debt Instruments, Money Market Instruments in compliance with Regulations to meet liquidity and expense requirements.

Equity Instruments

1. *Equity share* is a security that represents ownership interest in a company.
2. *Equity Related Instruments* are securities which give the holder of the security right to receive Equity Shares on pre agreed terms. It includes convertible bonds, convertible debentures, equity warrants, convertible preference shares, etc. The Scheme shall invest in Equity shares of constituents

of NIFTY 500 Index, however it may be entitled to and receive Equity Related instruments of such entities by way of corporate action.

3. Equity Derivatives are financial instruments, generally traded on an exchange, the price of which is directly dependent upon (i.e., "derived from") the value of equity shares or equity indices. Derivatives involve the trading of rights or obligations based on the underlying, but do not directly transfer property. The Scheme will take exposure to equity derivatives through stock futures of constituents of the underlying index.

Futures:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. The final settlement price is the closing price of the underlying stock(s)/index.

Debt & Money Market Instruments

Certificate of Deposit (CD)

Certificate of Deposit is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

Commercial Paper (CP)

Commercial Paper is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bills)

Treasury Bills are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days.

The Scheme may also invest in Cash Management Bill (CMB) issued by the Government of India to meet their short term borrowing requirements. CMB are generally issued for maturities of less than 91 days.

Commercial Usance Bills

Bill (bills of exchange/promissory notes of public sector and private sector corporate entities) Rediscounting, usance bills and commercial bills.

Repos

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, corporate debt securities, Government Securities, State Government Securities and T-Bills are eligible for Repo/Reverse Repo.

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.

The Scheme may undertake repo or reverse repo transactions in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.

The Scheme may invest in securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

Non-Convertible Debentures

Non-convertible debentures are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may have fixed or floating rate coupon. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements.

The Scheme may also invest in the non-convertible part of convertible debt securities.

Units of debt and liquid mutual fund schemes

The scheme may invest in units of debt and liquid mutual fund schemes of Axis AMC or of other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations. Provided that such investment will be within the limits specified under SEBI (MF) Regulations and will be done for cash management purposes

Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits issued by Para 12.16 of Master Circular for Mutual Funds.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity.

The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers, negotiated deals, etc. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

The Fund Manager may invest in any other security as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

B. What are the investment restrictions?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. The Mutual Fund under all its Scheme(s) shall not own more than ten per cent of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

2. No mutual fund scheme shall invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company:

Provided that, the limit of 10 per cent shall not be applicable for investments in case of index fund or exchange traded fund or sector or industry specific scheme

All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

3. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

4. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC.

Such limit shall not be applicable for investment in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

5. The scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating. Exposure to government money market instruments such as TREPS on G-Sec/ T-bills shall be treated as exposure to government securities.

Provided further that such limit shall not be applicable for investment in Government Securities, treasury bills and tri-party repo on government securities and treasury bills.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

6. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund.

7. The Scheme shall not make any investment in:

- a. any unlisted security of an associate or group company of the sponsor; or
 - b. any security issued by way of private placement by an associate or group company of the sponsor;
- or

- c. the listed securities of group companies of the sponsor which is in excess of 25% of the net assets; except for investments by equity-oriented exchange traded funds (ETFs) and Index Funds.

Provided that, Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.

8. The Mutual Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
9. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided that the Mutual Fund may engage in securities lending and borrowing specified by SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

10. The Scheme shall not make any investment in any fund of funds scheme.
11. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued Para 12.16 of SEBI Master Circular for Mutual Funds and as amended from time to time:

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. Further Trustees/ AMCs shall also ensure that the bank in which the Scheme has STD do not invest in the said scheme until the Scheme has STD with such bank.
- vi. The AMC will not charge any investment management and advisory fees for funds parked in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash market.

12. The Scheme shall not advance any loans.
13. The Scheme shall not borrow except to meet temporary liquidity needs of the Scheme for the purpose of repurchase/redemption of Units or payment of interest to the Unit holders.

Provided that the Scheme shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 month. The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

14. The Scheme will comply with the following restrictions for trading in exchange traded derivatives, as specified by SEBI vide its circular DNP/Cir-29/2005 dated September 14, 2005, as amended from time to time:

Position limit for Mutual Fund for stock based derivative contracts

The combined futures position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

Position limit for each scheme of a Mutual Fund

The scheme-wise position limit / disclosure requirements shall be:

- i. For stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Mutual Fund shall not exceed the higher of 1% of the free float market capitalization (in terms of number of shares)
or
5% of the open interest in the derivative contract on a particular underlying stock (in terms of number of contracts).
- ii. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- iii. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

The gross cumulative exposure through equity, debt and derivative position should not exceed 100% of the net assets of the Scheme in accordance with SEBI circular no. Cir/MD/DF/11/2010 dated August 18, 2010 as amended from time to time

15. In terms of Para 3.4 of SEBI Master Circular for Mutual Funds which specifies the portfolio concentration norms as follows, shall be complied with respect to the underlying Index:

- The index has a minimum of 10 stocks as its constituents.
- No single stock in the index shall have more than 25% weight in the index.
- The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

The benchmark shall be in compliance of the aforesaid norms.

16. Investment in Partly Paid Debenture, if undertaken, will be subject to a cap on maximum investment of Mutual Fund Scheme at 5% of the AUM of the scheme. However, once the Partly Paid Debentures are fully paid up, the cap on maximum investment of Mutual Fund Scheme at 5% of the AUM of the scheme will not apply.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

All the investment restrictions will be applicable at the time of making investments.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a scheme

An Open-Ended Index Fund tracking Nifty 500 TRI

(ii) Investment Objective

To provide returns before expenses that closely correspond to the total returns of the Nifty 500 TRI subject to tracking errors.

There is no assurance that the investment objective of the Scheme will be achieved.

Investment Pattern: Please refer to Section – I Part – II A ‘How will the Scheme Allocate its Assets?’.

(iii) Terms of Issue

- Liquidity provisions such as listing, Repurchase, Redemption. (please refer to relevant provisions under other scheme specific disclosure)
- Aggregate fees and expenses charged to the Scheme (please refer to Section I – Part III C “Annual Scheme Recurring Expenses”).

- SEBI has reviewed and provided its comment on the proposal
- a written communication about the proposed change is sent to each unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the mutual fund is situated; and
- the unitholders are given an option to exit at the prevailing Net Asset Value without any exit load for a period of atleast 30 days.

D. Index methodology –

Disclosures regarding the index, index eligibility criteria, methodology, index service provider, index constituents, impact cost of the constituents.

ABOUT THE INDEX:

The Nifty 500 Index represents top 500 companies selected based on full market capitalization from the eligible universe. Nifty 500 Index is computed using free float market capitalization method, wherein the level of the index reflects the total free float market value of all the stocks in the index relative to particular base period.

All equity shares listed on the NSE are eligible for inclusion in the Nifty indices. Convertible stock, bonds, warrants, rights, and preferred stock that provide a guaranteed fixed return are not eligible for inclusion in the Nifty indices.

To be considered for inclusion in Nifty 500 index, companies must form part of eligible universe. The eligible universe includes:

- i. Companies ranked within the top 800 based on both average daily turnover and average daily full market capitalisation based on previous six months period data.

- ii. Companies traded for at least 90% of days during the previous six months period.
- iii. Securities will be included if rank based on full market capitalisation is among top 350.
- iv. Securities will be included if full market capitalisation is 1.50 times of the last constituent in Nifty 500.
- v. Securities will be excluded if rank based on full market capitalisation falls below 800.
- vi. The Company should have a minimum listing history of 1 month as on the cutoff date.

Constituents of Nifty 500 Index as on March 28, 2025

As long as Units are pledged/liened, the Pledgee/lienee will have complete authority to redeem / Switch-out such Units. IDCW declared on Units under lien/pledge will be paid / re-invested to the credit of the Unit Holder and not the lien holder unless specified otherwise in the lien letter.

If there are subsisting credit facilities secured by a duly created pledge/lien, the nominee(s) or legal heirs / legal representative(s) shall be required to obtain a due discharge certificate from the creditors at the time of transmission of units.

For NRIs, the Scheme may mark a lien on Units in case documents which need to be submitted are not given in addition to the application form and before the submission of the redemption / Switch-out request.

The Units held in demat mode can be pledged/ liened as per the provisions of Depositories Act and Depositories Rules and Regulations.

However, the AMC reserves the right to change operational guidelines for pledge/lien on Units from time to time.

Suspension/Restriction on Redemption of Units of the Scheme

Subject to the approval of the Boards of the AMC and of the Trustee and subject also to necessary communication of the same to SEBI, the redemption of / switch-out of Units of Scheme, may be temporarily suspended/ restricted. In accordance with Para 1.12 of SEBI Master Circular on Mutual Funds as amended from time to time and subject to prevailing regulations, restriction on/suspension of redemptions / switch-out of Units of the Scheme, may be imposed when there are circumstances leading to systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

- a) **Liquidity issues:** when market at large becomes illiquid affecting almost all securities rather than any issuer specific security;
- b) **Market failures, exchange closures:** when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies;
- c) **Operational issues:** when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).

Restriction on / suspension of redemption of Units of the Scheme may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

When restriction on / suspension of redemption of Units of the Scheme is imposed, the following procedure shall be applied:

- i. No redemption / switch-out requests upto Rs. 2 lakhs shall be subject to such restriction.
- ii. Where redemption / switch-out requests are above Rs. 2 lakhs, the AMC shall redeem the first Rs. 2 lakhs without such restriction and remaining part over and above Rs. 2 lakhs shall be subject to such restriction.

In addition to the above, the AMC / Trustee may restrict / suspend redemptions / switch-out of Units of the Scheme pursuant to direction/ approval of SEBI.

In case of any of the above eventualities, the general time limits for processing requests for redemption of Units will not be applicable.

Also refer to the paragraph 'Suspension of Purchase and Redemption of Units' in the Statement of Additional Information.
